

Battery Kit for EV LED Lamps

100% portable unpowered for EV6000 and EV6500 models

The Battery Kit for EV LED Lamps allows you to power Magnaflux® LED luminaires without the need for cables or electrical power. The Kit was developed to power the EV6000 and EV6500 models.

With an aluminum body, a leather carrying handle and a belt clip, it is extremely light, providing comfort and practicality during use.

BENEFITS

- The batteries are protected in an aluminum case
- IP68 protection rating
- Autonomy of 8 continuous hours with the lamp on
- 3 hour charge time
- Intelligent loading and unloading control with BMS*

BMS "Battery Management System"

PRODUCT PROPERTIES

Model	Battery kit for UV Led Lamps
Type	Lithium-ion
Tension	24Vdc
Capacity	2,6Ah
Autonomy	8 continuous hours
Charging time	3 hours
Weight	0,85kg
Dimensions	H: 60mm x W: 110mm x L: 100mm
Protection rating	IP68
Charger	In 100-240Vac 50/60H, Out 29,4Vdc – 1A

ADDITIONAL PARTS

Modified source models must have the female connector installed on the source and the male connector on the luminaire cable. These connectors must be an integral part of the battery kit.

WARRANTY

This equipment is guaranteed for 12 months against manufacturing defects, counted from the date of issue of the Invoice to the consumer.

Magnaflux will arrange the repair and maintenance of the equipment during the warranty period in accordance with the Magnaflux Warranty Term, after evaluation and report by the technical team and verification of material or manufacturing defect.

Magnaflux maintains spare parts, local technical support and ongoing technical assistance even after the warranty period has expired.

If you have any questions, please contact Magnaflux: +55 11 5197-7500 or by email at contato@magnaflux.com
