

## GE-Series

### Inspection Hoods

Magnaflux® has worked hard to create a very functional inspection environment while keeping operator comfort and convenience in mind. Our durable curtains darken the inspection area to levels that meet all standards. The unit is easy to access through a “theater style” curtain, that can be folded and hung for ventilation in warmer environments. The overhead frame can also be opened so that inspection parts can be loaded by crane if necessary.

#### STANDARD FEATURES

- Simple yet strong mounting to all Magnaflux MPI Wet Benches
- EV6000 hand-held LED UV lamp with mounting bracket and ASTM & Rolls Royce certification
- Adjustable overhead frame opens enclosure for service or parts loading
- Easy access through front curtain (“theater style”)
- Flame resistant, adjustable length curtain
- White light and ventilation fan with touchscreen controls
